IN WINTER.

'Tis cold tonight
Through my frost-pictured pane
I see the old church vane,
Faded, wavering, toward the Northern Light!

'Tis icy cold!
The wind shrieks through the streets—
Stabs whomsoever it meets—
Turns blue, with frozen laughter, to the cold!

But in my room
The fire burns clear and bright,
The doors are closed and tight,
The curtains roll shut out the wintry gloom.

Here, side by side,
Like doves within their nest,
My two darlings rest,
No blessings are to them, to-day, denied.

But, as I view
Their sleeping forms so fair,
I think of Sorrow's lair
Stretched over dying hands, and dying brands,
Where the sick mother's troubled thoughts are thrown
Of wailings weak,
From pallid cheeks of pain,
Of sight-long vigils to be kept
Of some poor child, yet human as we deem,
Of dreary days (to them)
Of lonely nights,
Of hours of pain,
Of aches and throbs and hopes and fears and tears,
Of weary feet
Pacing the floor
Of cheerless rooms
Where Want and Woe
Are ever found
Hand in hand.

FOREIGN NEWS.

The America from Liverpool Jan. 2d arrived at Halifax on the 16th.—

Among the passengers are Madame Lola Montez, Countess of Landsfeldt, who was married to Prince of Shulkasky, of Paris.

The America had strong gales of westerly wind during the voyage.

The America reports, 5th, 7. 43 P. M. passed steamship Europa.

British revenue returns show a decrease in receipts for last quarter, of about £800,000, and on the year, about £1,800,000. The decrease principally arises from reduced taxation.

The official programme of the ceremonies to be observed on the marriage of the Princess Royal appears in the court circular.—The wedding is definitely fixed for January 25th.

(From the Times.) By the present time probably Canton has been attacked and captured. It has been determined to make the dispute entirely local. Should the Emperor answer the capture of Canton by the expulsion of English traders from Shanghae, then indeed matters will grow serious.

The British force seems to be sufficient for the purpose of retribution at Canton. In a few days, says our correspondent, we may reasonably expect to have 7,000 guns and 7,000 men in these waters. Of the latter we shall probably be able to land 4,000.

We learn that the French have also determined to resort to hostilities against the Chinese. Baron Gross has with him a naval force from which he can land 600 seamen; he has therefore resolved to join operations against Canton. Thus we shall have the singular spectacle of two nations simultaneously prosecuting hostilities against the same people, on different grounds, and without any formal convention of alliance,—in fact the two expeditions may be looked upon as entirely separate.

It is well understood that the Americans are to retain their position of looking on.

The process of working down the Leviathan, towards the water will be formally commenced for the 6th time either to day or Monday. No less than 11 presses are fixed against the aft cradle, and 10 against the forward one. One of the former is of enormous strength and dimensions.

The Paris Constitutionel boldly defends the system which the French government has adopted of purchasing negroes on the coast of Africa and carrying them to compulsory service in the French Antilles. It argues that in no other manner can prosperity be restored to them, and ridicules the opposition of English philanthrophists. A dispatch from Paris, however, says that the Emperor will not renew the contract for supplying French colonies with negroes.

Letters from Naples give graphic details of the late earthquake. Official accounts leave no doubt that several thousand perished, and some estimates go as high as 15,000 to 20,000.

Sardinian parliament is about to deal with clerical interference in the late elections.

Letters from Spain say, it appears certain that the Spanish Government will consider the mediation of England and France in Mexican affairs as broken off, if Mexico does not accept all its conditions. In consequence of this resolution, preparations are being actively made, both in Spainish ports and in Cuba, for the expedition against Mexico.

A Berlin letter says that the American crisis caused such a serious effect on the commerce of Thuringen, that the government of Weimar has thougt necessary to convoke an extraordinary session of the diet, to regulate commercial affairs in Apolna, which is the principal manufacturing town of the Grand Duchy, contains a great number of stocking weaving establishments, the productions of which are exported to the United States via Hamburg.

It said that the Porte, before consenting to cutting of the Suez canal, demands the evacuation of Persia.

Calcutta mail has reached London—Details of the news add little to the information of importance.

Accounts of relief of Lucknow are meagre.

Loss of rebels between 13th and 17th is estimated in one account at seven thousand.

According to advices in French papers, negotiations entered into by English Representation with the Chinese government have failed.

Persecutions of the Chinese against christians were increasing—several of the latter having fallen victims.

The United States frigate Minnesota, reached Hong Kong 5th of November.

Mr. Reed landed on 7th, under salute from fort and guard of honor.

At Shanghai, prices of teas were without material change, although holders were demanding higher rates.

The United States steamers Minnesota and San Jacinto, and the sloops Levant and Portsmouth, were at Hong Kong on the 15th Nov.

New Orleans, Jan. 15. A sudden storm of wind came up this afternoon, accompanied by rain, which amounted to nearly a hurricane. Fifteen ships broke from their moorings, and were considerably damaged. The C. S. Permel of Bath, and the Ellen Stewart were badly injured.

Several houses were unroofed and otherwise more or less injured.

The lake end of the Ponchartrain Railroad is about half destroyed.

The damage to steamboats, which the wind broke loose from their fastenings, is immense.

Chimneys were blown down, and several lives were lost. Many tow-boats were also injured. It is impossible to get full particulars, or the names of the boats injured and destroyed, to-night.

The storm lasted only half an hour, blowing down fences and injuring many verandahs in the city.

It is not known whether it extended to the gulf, but many fears are expressed in regard to its effect in that region, and that the damage is much greater than has yet been reported.

Massachusetts Legislature.—Hon. Chas. W. Upham of Essex has has been chosen President of the Senate; and Stephen N. Gifford of Duxbury, Clerk. Hon Julius Rockwell of Pittsfield, Speaker of the House, and William Stowe of Springfield, Clerk.

—The vote for Governor, as reported by the Committee was:—

Whole number,	97,668
Necessary to a choice,	48,533
Jos M. Morrill,	54,473
Manassah H. Smith,	42,940
Geo. F. Patten,	180
All others,	75

Singular Accident to a Horse.—Two horses belonging to Mr. Geo. Smith of Whitinsville, were standing together, a few days since, and one them began to lap the other with his tongue, when No. 2 caught his mate's tongue in his mouth, and tore it out by the roots. It of course became necessary to kill the tongueless horse, which was done by knocking him in the head with an axe.—*Woonsocket Patriot.*

New Hampshire.—The American Republicans of the Granite State have renominated Governor Haile as their candidate for Governor, to be supported at the coming election. The nomination is a judicious one, and will undoubtedly be sustained by the people.

Washington News.

The correspondent of the N. Y. Times says:

"It is found that the Minnesota Constitution sent to Congress is not the one signed by the entire Convention and ratified by the people, but the one adopted in the minority Democratic segment of the Convention, while it was divided, and before the two segments united. It is signed by only the Democrats of the body, who numbered less than a majority of the delegates elected. There is little substantial difference in the two instruments.

This palpable and astounding fraud evidently has two objects—first, to ignore altogether the Republican majority in the Convention; and, second, to involve the Minnesota case in irregularity, so as to furnish an excuse to hold it back until its admission can be made the price of the admission of Kansas.

The indications are that the Republicans will insist upon the production of the true document ere they will vote for the admission of Minnesota."

The administration adheres to the Lecompton swindle strenuously, despite legislative instructions, and is hopeful of success.

Southerners insist that the double-headed Convention of Minnesota was as irregular as that of Kansas.

The Senate Territorial Committee, on the question of admitting Minnesota, stand probably three for and three against it.

With regard to the Lecompton Constitution in Congress, the correspondent of the New York Courier and Enquirer says:

"The House will be attacked in flank and rear with the four or five regiments which it is proposed to raise. Two hundred commissions for life offices—prizes the most glittering in the eyes of Democratic anti-aristocrats—will be held up to the admiring gaze of those twenty-three Northern members whose votes are asked for as necessarily to the accomplishment of the scheme. Then there remains that prodigious mass of patronage included in the reserved list of officers, which fell in by the practice of the Democratic party on the 4th of March last. The pressure from these various sources of persuasion might move a patriot of Lacedæmon, or of Rome, to say nothing of a rude and anti-Lecomptonian from the North or Northwest."

The correspondence of the Tribune:

"The Territorial Committee of the Senate sat several hours yesterday, without reaching a conclusion respecting Minnesota. It was resolved to request Gov. Sam. Medary, now here, to present officially the Constitution signed by the Republican members of Convention. There are but fifty-one names, Democrats, appended to that presented, thus defeating the terms of the Enabling Act, which required a double Legislature, or one hundred and eight members, to form a Constitutional Convention. If he consents, that difficulty will be removed.

Mr. Douglass presses for the admission of Minnesota very earnestly. Mr. Green and others desire to have report made to the Senate on all the facts relative to the two Conventions, perhaps with the view of reserving the question of the application of Minnesota, so that it may come in as an equivalent for Kansas.

Ex-District Attorney Weir brought no communication of any kind from the Government, and is openly in the interest of Mr. Douglas. He was formerly a rampant pro-slavery agitator.

The Administration feels confident of carrying the Lecompton scheme through in spite of the defection in the House, and so assures its friends. If the experiment fails, then the plan is to fall back on a part of Pugh's proposition, and to give the State an admission conditional upon the submission of the Slavery question to the people. Several Southern members are preparing for this alternative."

The senate have confirmed the following appointments:—

John Appleton of Me., Assistant Secretary of State.

Richard K. Meade of Virginia Envoy Extraordinary and Minister Plenipotentiary to Brazil.

William B. Reed of Pennsylvania, Envoy Extraordinary and Minister Plenipotentiary to China.

John Bigler of California, Envoy Extraordinary and Minister Plenipotentiary to Chili.

Henry C. Murphy of New York, Minister Resident to the Netherlands.

Benj. F. Angell of New York Minister Resident to Sweden.

Jas. Williams of Tenn., Minister Resident at Constantinople.

William R. Calhoun of South Carolina, Secretary of Legation at Paris.

(Correspondence of the Evening Post.)—The Minnesota Constitution, submitted with the names of all the democrats and certified to by the Secretary of the Territory, has arrived. Gov. Medary refuses to sign it.—He says the copy sent him, agreeably to the Constitution, he sent to the President. The new Senators, Representatives and delegates from Minnesota agree to certify that the Republican constitution is the true copy, and that the names signed are genuine, which may be acceptable.

The committee on Lecomptonites feel sanguine of success, and boast that they will carry the Constitution through Congress in less than 90 days.

The Administration is anxious to keep Minnesota out. Its supporters in the Senate will refuse to unseat Fitch and Bright, but will press action in the House against Davis and Harris of Md., and Campbell of Ohio, anti-Lecomptonists.

The correspondent of the N. Y. Times says:

"The Kansas Constitution has certainly arrived, and is understood to have been considered in the Cabinet to-day (the 15th.) It will undoubtedly be sent to Congress.

The Administration men say it is settled that Kansas, Oregon and Minnesota are to be yoked together and forced through, and that the Indiana Senators, with Bigler and Jones, are relied upon to unite with them the necessary majority."

The correspondent of the Journal of Commerce says:

"Inasmuch as it is uncertain what reports we are to have from Kansas as to the election of the 21st and 4th, and as *the President has not made up his own mind what ought to be done*, it is impossible now to say whether this or that project will prevail."

Agency for Securing Patents.—Our readers will notice the advertisement of R. H. Eddy, Esq., of Boston, whose extensive agency for producing patents has been in successful operation for upwards of twenty years. Few, perhaps, are aware of the immense advantages it affords to those having business at the Patent Office, in Washington. Mr. Eddy has every facility for securing patents in the shortest possible time, both in this country and in Europe, and his long experience, and great success in business, qualify him to give valuable advice to inventors, touching the validity and patentability of inventions. Caveats, Specifications, Assignments, and all papers or drawings for patents, are executed in the best manner, and every detail of business necessary to secure the rights of inventors by legal authority is attended to with fidelity and skill.

From Kansas.

At the election of the 4th inst. 776 votes were cast in Lawrence, of which number 2 only were in favor of the Lecompton Constitution, and the rest against it. The Free State ticket received from 250 to 259 votes.

We take the following from the Leavenworth City Times, Jan. 5:

"Yesterday the election for State officers, and the adoption or rejection of the Lecompton Constitution in its entirely, passed off without the slightest disturbance in this city. Two companies of U. S. infantry were at the polls, and a full battery near at hand, to preserve the peace. For the first time in our life we were compelled to pass through a line of Federal troops to deposit our ballot. We have a special chapter on this subject 'embalmed,' which we will give to our readers at an early day. We have only time in this issue to give the vote of this city:

Against the Constitution framed at Lecompton	1,593
For the Constitution with Slavery	6
For the Constitution without Slavery	2
Scattering	2
Total	1,606
Majority against Lecompton Constitution	1,572

The average Free State majority for the State officers was 925.

St. Louis, Jan. 16.

The Leavenworth Times of the 9th says that reports indicate the success of the Free State ticket, while the vote against the Constitution probably exceeds 25,000. The Lawrence correspondent of the Democrat says that so far as heard from the Free State party has secured 31 out of 44 Representatives, and 14 out of 18 Senators. The vote against the Constitution is about equal to that polled at the October election. Gentlemen who left the Territory on the 11th inst. report the Democratic State ticket elected.

The Republican learns that General Calhoun had returned to Lecompton under an escort of U. S. troops, and that he would leave Leavenworth on Wednesday last for Washington with the Lecomptrn Constitution.

Ex-Governor Geary has written a letter to a gentleman in Kansas, dated Dec. 15, 1857, condemnatory of the Lecompton scheme. He makes the following important statements:

"In my veto message upon the bill authorizing the Constitutional Convention, I waived all the minor objections to it and dwelt alone upon the fact that the bill contained no clause authorizing and directing the submission of the Constitution to the people for their ratification or rejection. In a conference with the committees of the two houses by whom the bill had been reported, I proposed to sign the bill, provided they would insert in it a section authorizing the submission of the Constitution as above indicated. But they *distinctly informed me that the bill met the approbation of their friends in the South—that it was not their intention the Constitution should ever be submitted to the people*, and that to all intents and purposes it was like the laws of the Medes and Persians, *and could not be altered.* Upon the vital principle of submission alone the bill was vetoed, and it now affords me no ordinary pleasure to find that I took the initiative step in this great question which now agitates the entire nation, and that good patriotic citizens unanimously, everywhere, sustain the principles laid down in that message."

The Washington correspondent of the Philadelphia Bulletin, last Friday, said:

"Various conflicting reports are in circulation from telegrams said to be in town, respecting Kansas—both parties claiming complete success in the Territory.

I have just seen a gentleman direct from the Territory, and his report was reliable to the best of his information. He says, 'The vote on the 4th gave a majority against the Constitution with slavery. The vote was about 10,000. All the returns were in.'

The Republicans have carried the Legislature by 2,000.

The Democrats have carried the State ticket by 1,000 to 2,000."

—The Kansas correspondent of the N. Y. Times writes:

"One fact should be noted in reference to the services of the United States Army at this election. Denver had taken more pains than his predecessors to distribute the troops along the border and at the principal inland towns. We had hoped, therefore, to see something like fair play, but proof comes up from every quarter that the soldiers were stationed *only to protect the frauds. This cannot be denied.* Our challengers were driven away from Oxford when the troops were standing near them, and were obliged to escape for their lives. Orders were given the troops to only obey the orders of the Judges, and when our challengers interfered in the line of their duties, the Judges insultingly told them they knew their own business and should take no notice of them. The same was true at Kickapoo, Delaware and other places. Our challengers were driven from the polls at all these places, and the troops protected the bogus Judges."

Mr. Hale Explains the New Hampshire Democratic Resolutions.—After the angry discussion between Messrs. Douglas and Fitch as to the meaning of the Indiana resolution, Mr. Hale put the Senate in good humor by the following explanations, which will be relished by our friends in New Hampshire at least:

"Mr. Hale thought that, as 'personal and political explanations' seemed to be the order of the day, he ought to be indulged in a few remarks explanatory of the position held by the Democratic State Committee of New Hampshire, the members of which had recently promulgated, on behalf of the party and with reference to the Kansas question, a resolution very similar in its terms to that adopted by the Indiana Convention. He deemed it unkind to scan too closely these resolves of the Northern Democracy, who, it was to be remembered, were exceedingly hard pressed at home, inasmuch as they found it difficult to live in any place less secure than a Custom House or a Post Office. Resolutions passed by gentlemen in such a critical situation deserved, he thought, to be treated very tenderly, when brought to the notice of the Senate.

The Democracy of New Hampshire, for example, had been reduced to even greater straits, if possible, than their Indiana brethren. An election was close at hand in the former State, and it was apparent that something must be done to relieve the party from the pressure of the odious Lecompton Constitution on the one hand, and the Administration's approval of that instrument on the other. The State Committee, therefore in a series of resolutions, had reindorsed the Kansas-Nebraska act, reaffirmed the Cincinnati platform, complimented Mr. Buchanan, and repudiated the Lecompton Constitution; in other words, the New Hampshire Democratic State Committee approve Mr. Buchanan, but do not approve his measures. This it seemed, was about the position they occupied in the premises, and if it appeared even less comfortable than that of the Indiana Democracy, it was probably because the former were reduced to even greater extremities than the latter.

The facetious remarks of the Senator provoked much merriment on all sides of the chamber, and in talking his seat he thanked the Senate for its courtesy in permitting him to plead in behalf of the Democracy of New Hampshire, as Mr. Fitch and Mr. Douglas had done in behalf of the Democracy in Indiana."

The Ellsworth American

ELLSWORTH:

FRIDAY MORNING, JAN. 22, 1858.

Agents for the American.

The following gentlemen will act as our agents in their localities—receive money and give receipts for subscription to the American. We will thank our agents for news items and hope they will note passing events of public interest and forward to "The American."

O. M. Sargent, Dr. S. Drinkwater, Sedgwick; Capt. Wm Hopkins, Blue Hill; James W. Davis, Surry; J. H. Foster Franklin; J. B. Johnson, East Sullivan; John M. Noyes Mt. Desert; L. T. Dorr, Bucksports; Samuel J. Lord Travelling Agent.

V. B. PALMER, the American Newspaper Agent is the authorized Agent for this paper in the cities of Boston, New York, and Philadelphia, and is duly empowered to take advertisements and subscriptions at the rates required by us. His receipts will be regarded as payments. His Offices are—Bosworth, Sullivan's Buildings; New York, Tribune Buildings; Philadelphia, N. E. Cor. Fifth and Chestnut Streets. S. M. Pettengill & Co., are also our authorized agents.

—At the recent State Temperance Convention, Gov. Morrill presided.—The meeting was a harmonious one, and its doings satisfactory to the friends of temperance. The following resolutions were passed:

Resolved, That we hail with profound gratitude to God the present wide spread conviction of the people of Maine that the license system for the suppression of the liquor traffic has been weighed in the balance and found wanting.

Resolved, That prohibition is the true and only basis of legislation that will give efficiency to any law for the suppression of intemperance; and the people of Maine demand an immediate return to that great principle.

Resolved, That in the cause in which we are engaged we recognize no religious sect or political party as such, but cheerfully welcome to our ranks any man who will adopt in principle and practice, the great moral doctrine which lies at the foundation of our enterprise, the legal prohibition of the traffic in intoxicating liquors as a drink.

Resolved, That we repudiate the aspersion which has been cast upon us that in giving so much prominence to the doctrine of prohibition we have abandoned moral suasion, while on the contrary, we believe that prohibition is the highest and truest development of Moral suasion—Moral suasion in its kind and sympathizing application to the inebriate; but legal suasion in the just and rigorous application of law to rum selling as to other notorious crimes.

Resolved, That since it is understood to be the policy of the Legislature to submit to the people a law to prohibit the sale of intoxicating liquors, it is expressly important, and we think is imperatively demanded by the friends of Temperance throughout the State, that the law be submitted at the earliest possible day.

—In the Senate of Maine, after the Committee on Senatorial votes had made a final report, Mr. Hamlin of Penobscot, announced the death of Hon. Charles Parsons Chandler, member elect from Piscataquis, who died in Nov. last.—Mr. Hamlin's remarks on the occasion were a beautiful tribute of respect to the deceased. Mr. Wasson of this county then offered the following resolutions accompanied with the remarks below.

Mr. WASSON then offered the following:

Resolved, That the Senate of Maine have, with the deepest feelings of sorrow and regret, received intelligence of the death of Hon. Charles P. Chandler, Senator elect from the tenth Senatorial District.

Resolved, That the members of the Senate most willingly bear testimony to the spirit of urbanity and kindness, energy and perseverance, which distinguished him in all his social and official relations.

Resolved, That the resolves be entered upon the Journal of the Senate, and a copy signed by the President and Secretary be forwarded to Mrs. Chandler, the widow of the deceased.

Mr. WASSON of Hancock, said:

Mr. President: The announcement of the death of Mr. Chandler should forcibly remind us that

'Pale Death with equal foot strikes wide the door,
Of royal halls and hovels of the poor.'

It should deeply imprint upon our minds that, however exalted our station, or responsible our position—though we may wear the wreath of political triumph, or bestride the highest wave of popular favor—naught of these can ward off the sure, unerring, fatal arrow of death.

He whom we now pay our last tributes of respect, was called by his fellows to repair to the Capitol with ourselves; to him were delegated important trusts; but it has pleased the Governor of the Universe to summon him to another scene of action. His labors here are finished; there begun.

My acquaintance with the deceased was short. We met one year ago as strangers. I first learned his worth in the committee room,

"Where his social converse was itself a feast."

Affable, courteous, unassuming in his every day deportment—a safe and correct adviser—an industrious and faithful legislator—*we parted as friends.* His death is a loss, not only to his family, but alike to his constituents—the Senate—the State; but

"They to depart, were grief misspent indeed,
It were to weep that goodness has its meed;
That there is bliss prepared in yonder sky,
And glory for the virtuous when they die."

TOWN AND COUNTY MATTERS.

—We are under obligations to W. R. Lincoln, the superintendent, for a copy of his interesting Report of the State Reform School, for 1857.

A successful Ship Master.—Capt. Elias Lord, of Ellsworth, now about 70 years old, has been master of a vessel for a little rising 50 years. His business has been that of coasting; and since commencing the life of a sailor, he has been seven trips as cook; as a hand twenty four trips; and first hand or mate, seven; as master, five hundred and seventy-nine trips. During this long time, he has never lost a trip from sickness, or any other cause. He has never lost a vessel, or had one damaged bad enough to call on the owners to pay expenses. Nor has he had any goods which were on freight, damaged to any amount. We think a parallel case cannot be found in Maine.

—The Jail in Waldo county has never been so fully tenanted as now. We learn that the Jail in this county is fully inhabited.

ITEMS.

—Coughs, colds, soreness of the chest, and bronchial irritation, which are among the exciting causes that tend to produce Consumption in those that are predisposed, are all removed and effectually cured in a very few days by that most remarkable discovery of the nineteenth century, Fousel's Pabulum Vitæ. See advertisement.

—The following gentlemen compose the present Executive council of Maine.—Benjamin Freeman, Bethel; George Pierce, Harrison; William M. Reed, Bath; Dennis L. Milliken, Waterville; Aaron A. Wing, Bangor; William Merriam, Camden; James Sullivan Hall, Calais.

—The Machias Union says that a few days since one of the scholars in a school in a neighboring town, in consequence of an assault upon his teacher, was sentenced to pay a fine of $20 and costs or be imprisoned thirty days in the county jail. In view of the hard times and scarcity of money the latter was preferred, and he is now in as comfortable quarters, as the good county of Washington can afford.

—In one of the sermons printed in the Deseret News, a statement is made that Deseret had been declared independent on the 24th July, but there is no explanation of how the declaration was made.

—In laying a submarine cable for a telegraph between France and Algiers, it has been discovered that in some places the Mediterranean is 2000 fathoms deep, or nearly 2 1-2 miles.

—Projects are on foot to keep Minnesota out of the Union until her right can be coupled with the claim of Kansas, or some other Slave Territory. It can only succeed through the timidity of the Free State party in Congress.

—Judgment was rendered on the 5th inst., against Gen. Wm. Walker and his surety, S. F. Slatter, in the Circuit Court of the United States, at New Orleans, for $2000 on the recognizance of the former to appear to answer for a breach of the neutrality laws, and which recognizance was forfeited by his departure in the Fashion in November.

—The Portland Argus states that the dwelling house of James Kilbreth, Jr., of Livermore, Me., was consumed by fire on the eve of the 14th inst., and that Ellen, an only and much beloved daughter, aged about 17, perished in the flames. Two sons narrowly escaped. Mr. and Mrs. K. were absent at the time.

—The Lecompton Star, a pro-slavery sheet, is already clamorous for a new Governor, Denver not being able to go the length desired.

—We learn from the Rockland Democrat, that in an altercation, Thomas Cunningham stabbed Henry Fitzgerald in the back so that it is doubtful if he will recover. Cunningham is now lodged in Wiscasset jail.

—A man named Wilson has been sentenced to three years in the State Prison for breaking into Mr. W. Brown's store at Eastport, as we learn from the Sentinel.

—A house in Perry, owned by Capt. Rufus Jones, and occupied by his family, was consumed by fire on Wednesday last. The house was insured for $400.

—A house owned and occupied by Mr. Francis Antoine, in Pembroke, was entirely consumed by fire last week.

—One of the missionaries from Turkey, who was present at the late Penobscot Conference, spoke of having taken a trip on the old steamer Bangor in Turkish waters.

—The Herald contains a letter from Senator Brown of Mississippi, denying that he has abandoned the Lecompton Constitution, and saying that he has not a shadow of doubt that Kansas will be admitted under it, without the slightest regard to the vote of the 4th.

—William Low, at his Meat Market, on Kenduskeag Bridge, Bangor, has on exhibition the largest turkey ever brought into this city. It weighs *twenty-seven pounds.*

—The Free State Legislature of Kansas has voted to remove from Lecompton to Lawrence, there being no accomodations at the former place. Gov. Denver has approved of the removal. The Topeka Legislature, now in session at Lawrence, has elected officers and received a Message from Gov. Charles Robinson.

—The Joint Select Committee of the Legislature, on so much of the Governor's message as relates to the traffic in intoxicating drinks, consists on the part of the Senate, of Messrs Thomas, Wasson, Hamlin, Fletcher, Hobart, Lothrop and West. On the part of the House, of Messrs Gilbert, Boody, Tapley, Fox, Hanson, Milliken, Estes, Moor, Shaw, Rackliff, Flye, Davis, Mayo, Merrill and Libbey.

—Benj. D. Peck, Esq., has been re-elected as Treasurer of State, and Noah Barker, Esq., as Land Agent. The selections, and elections were made with great unanimity.

—The Progressive Age says, the general impression is, that J. G. Dickerson, Esq., will be appointed collector in the Belfast District.

A Wheel within a Wheel.—The Territorial Legislature, and the Legislature elected under the Topeka Constitution, are both in session in Lawrence, Kansas. Gov. Denver, Mr. Buchanan's Governor, has delivered a Message to the Territorial Legislature; and Gov. Charles Robinson, the people's Governor, has delivered one to the people's Legislature.

Is Friday an "Unlucky Day?"—The year 1858 begins and ends on Friday. January, April, July, October and December, have five Fridays each. April and December end on Friday. There are 53 Fridays in the year. We trust, however, it will not prove more disastrous than 1857.

Rhode Island Banks.—Bills of all the Rhode Island Banks, except the following, are now received at the Suffolk Bank, viz:—Bank of South County, of Wakefield; Bank of Republic, Providence; Farmers' Bank, Wickford; Hopkinton Bank, Westerly; R. I. Central Bank, East Greenwich; Tiverton Bank, Tiverton; Warwick Bank, Warwick; Mount Vernon Bank, Providence.

COMMUNICATIONS.

Original Definitions.

Love, Courtship and Matrimony.

What is love? An imaginary passion which romantic young gentlemen, and sentimental young ladies talk about, but which old married people think a glorious humbug.

What is courtship? A blissful season when a couple labor under the delusion that the world was made expressly for them and that they two are the only two people of any account in it, when they live in air-castles and feed on kisses and honey.

What is matrimony? A time when people get their eyes open, when they come out of their air-castles and live in ordinary houses or out of their dream-land into real life, when the man promises to love and protect the woman and chop her firewood all the rest of his life, and the vows to take care of the babies, sew on buttons and keep his shirts in repair. This is common matrimony.

A Protest.

Mr. Editor.—

I see that the ladies of Ellsworth are "waking up" on the subject of temperance and have taken the matter in hand, in "good earnest." They are engaged in a noble work and I sincerely wish them success in their endeavors to put down, that meanest of all business—rumselling. But what, Mr. Editor, can be done for old Goulsboro? Unlicensed rumsellers here ply their unholy and unlawful trade, and the effects of their vile traffic is seen in those who are unable to resist the temptation to taste the poison which is placed before them. How long shall these things be allowed? How long shall the rumseller be permitted to carry on his work of ruin and desolation, to minister to the diseased appetite of the intemperate, to outrage the feelings of humanity, and to bring reproach upon the town of his residence? Can no law be framed which can stop the vile traffic in liquor and protect the unfortunate victims of intemperance from those who take advantage of their wretched love of "strong drink." It is vain to talk of "moral suasion," as applied to rumsellers. The *rum-drinker* may listen to the voice of kindness and reason, but what entreaties can touch the callous heart of the rumseller?—What can influence one so lost to humanity, so lost to self-respect, so dead to every generous impulse, that he will, for the guilty greed of gain, engage in that infamous business—rumselling. It is time that the people should arouse. From every heart which is not dead to humanity should go forth an indignant outcry against the unlawful sale of intoxicating liquor. How long will the professedly temperate share the rumseller's guilt by suffering him to carry on his vile trade unchecked? People of Goulsboro', what can be done to save one good old town from the blight of intemperance? Inhabitants of Hancock county, what can be done for old Goulsboro'?

Piscataquis Senator—Insane Paupers—Insane Asylum—Mr. McClusky—Washington County Commissioner—Liquor Law—East Maine Conference—Licence Consolidation.

Jan. 16th, 1858.

Andrew Wiggin the "new" senator appeared Friday and was qualified. He is a smart looking fellow. Your representative, Moor, who, by the way, keeps a sharp eye out for Ellsworth—has introduced an order to have insane paupers, in the Hospital, wholly supported by the state. A good move. The "temperance" committee on the part of the senate consist of Messrs Foxcroft, Wasson, Hobart, Hamlin, Lothrop, Fletcher and West.

That we are to have a prohibitory law, is "reasonable sure," but what it is "to be or not to be," that's the question. That all men of all parties are committed to the principle of prohibition, the legislation of '55 and '56 bear witness; it is only its degree of stringency on which we differ. Some of the prominent members of both Houses are decidedly opposed to any action in the premises. Some few are only content with a superlatively intensified, positive, *actual*, prohibitive annihilation, while a majority, unquestionably, are disposed to cool, considerate, conservative action. A Bill already framed, takes the Wells' law as a basis, erasing the license portion, and incorporating certain sections from the laws of '51 and '53. The "bone of contention" really is "shall the search and seizure clause" be inserted.

The proposition to submit a law to the people and have their return vote before the adjournment, is fast finding favor. At any rate a bill will be framed—stripped of partisan elements or political characteristics—and in due time presented to the people.

Petitions are coming in, thick and fast, for and Insolvent Law. The subject is attracting much attention.

The friends of the East Maine Conference Seminary are making a smart effort for "aid"—wish I could say their prospect was promising.

A movement is again on foot to abolish the office of Commissioner of Claims at Washington. The embarrassed, depleted condition of the Treasury calls loudly for retrenchment *somewhere.*

McClusky's case is now in process of investigation.

The sham democratic members are not as *wild* as heretofore, or else undecided in their affections between "good Lord" Douglass, and "good Devil" Buchanan, they keep very quiet. Dr. Baxton of Warren, is their standard bearer—the nucleus around which the cat-coons gather.

Istoreo.

An Explanation.

Mr. Editor.

Allow me to say, that in my article on Rumselling, that I did not "allude to Ellsworth as having any dumb pulpet." At the time of writing the article, I knew but little of what had taken place in Ellsworth, in regard to rumselling, and the article suggested itself to my mind from the fact of the alarming increase of intemperance in our State, the agitation of the public mind on spiritualism and other so-called reformatory subjects, and the great falling off of interest in the faith and power of the Christian Church. The church generally, and but few, I think, will pretend to deny it, has been shamefully dumb in all the moral reform topics of the day, more particularly, intemperance and slavery; and any article in which this shameful remissness of duty, on the part of the Church, is handled with strict regard to truth and justice, would be apt to "allude" to any "dumb pulpit" wherever it might be. Ellsworth may indeed be congratulated, if it can lay no claim to a pulpit of this kind, if a pastor fearless, earnest, serious and faithful," who, unshackled by popular opinion and the prejudices of his church, fearlessly following the "Great Exemplar," preaches to them the way of truth and righteousness, and unmoved by threats and warnings, boldly rebukes "sin in high places," and says to those who assemble at the house of worship, whose daily lives are directly and preptibly at variance with each and every principle of Christ's Gospel.—"Thou art the man." Such a pastor, Mr. Editor, needs no eulogy from you or me. His conscience will lend her voice to cheer and strengthen him in such a manner as will put to shame the world's admiration, the voice of God will speak to his spiritual senses, lovingly and tenderly, saying, "This is my beloved son in whom I am well pleased," and it would seem like sacrilege for me to offer to such a noble spirit my public admiration. Get grant, that all "dumb pulpits" may "speak with the tongues of Angels," and so work conscientiously and nobly, to change public sentiment, so it will say to those who deal in death and destruction, "depart from me ye cursed."

Ladies' Temperance Meeting.

Owing to the state of the weather there was no meeting held at "Union Hall" on, Monday Eve, Jan. 11, but notwithstanding the brief notice given, nearly one hundred ladies assembled on Tuesday Eve.

Secretary resigned her office, and A. F. Greely chosen.

The following preamble and resolution was then adopted.

Whereas, The Rumseller will continue his illegal traffic, as long as patronage is extended to him, therefore

Resolved, That we will not patronize him ourselves, by purchasing his meats or groceries, and we will use all our endeavors to induce others to withhold their patronage from him.

Voted, that a full report of the interview, between the Committee and selectmen in regard to giving license for the past twelve months, be published in the American.

Voted that a full report of the interview between Mr. J. S. Lord and the Committee in regard to a license being granted in one instance be also published.

Committee chosen to draw up Resolutions Mr. Franklin, Miss M. Jellison and Mrs. Collins.

Adjourned until Monday Eve.

A. F. Greely, Sec.

Met pursuant to adjournment, Monday Eve. Jan. 18th.

The Reports of the committee, prepared for the American, were read and accepted. The committee chosen to wait on the selectmen were, Miss M. Jellison, Mrs. Collins and Mrs. C. L. Dolaite—the reports read as follows—on being asked if any license had been given for the past twelve months, the reply was, "we have never in a single instance granted a license to sell Liquor; we have been told there are forty drinking houses in town and they are all selling without license; we have given no licenses and none has been applied for." The Committee chosen to wait on the the rumsellers were, Miss M. Jellison, H. L. Jordan and A. F. Greely.

Mr. J. S. Lord said positively that when Mr. S. Jordan applied to him for his building, to be occupied as a meat-market and a liquor store, he asked him if he had procured a license to sell liquor; he replied he had spoken to the selectmen on the subject, and they had promised him a license; it had not been given in writing but they were intending to do so, and had given him to understand they would not trouble him. Mr. Lord also said he knew Mr. Jordan had a verbal License.

The following resolutions were then read and adopted:

Whereas, many of the pecuniary embarrassments of the present day have their origin in a conformity to the prevailing fashions of the the times, therefore,

Resolved, That it is the duty of every intelligent and right-minded woman, by simplicity in dress, and economy in domestic arrangements, to rebuke the reckless extravagance that prevails to a greater or less extent, in this, and in other communities; and, we will endeavor so to adapt our expenditures to our means, that our husbands and our fathers shall have no cause, on our account, to resort to any calling, or any course of conduct inconsistent with strictly moral principles.

Resolved, That it is our belief, that no law however stringent or efficacious it may be, can supercede the necessity of public sentiment, of a sense of individual responsibility, and, of constant associated and individual effort in the cause of temperance.

Adjourned until Tuesday Eve. Jan. 26th.

A. F. Greely, Sec.

—Abram Cox and Peter Williams, are on trial at Portland, before the U. S. Circuit Court, for the murders committed on board of the Albion Cooper, in August last. It will be recollected that the Albion Cooper sailed from Portland, in July last, for Havana. While the brig was at anchor, became on the Bahama Banks, the prisoners committed the murder of the captain—David R. Humphrey, Collingwood P. Smith, mate Quentin D. Smith, 2d mate, and Davis Burns, Seaman.

Query.—If the *Lecompton convention* were not bound to submit *any* part of their draft of a constitution to the people, and the partial submission which they did make is to be regarded as a mere act of courtesy on their part, the question arises, were *the people* bound to vote on the portion so submitted?—and to accept of the "courtesy" so graciously extended to them? Cannot the "sovereign people" decline to receive from the hands of their delegates, *as a courtesy*, what is denied them *as a right.*—*Age.*

The Democratic Tribune, of this city, must certainly look after the black Republican Age. Such treason never should be tolerated in a free government. The Age editor ought certainly to be hanged on the nearest tree.—Will the Tribune have the thing done?—*Bath Sentinel.*

NEW PUBLICATIONS.

Harper's Magazine for Febuary is received from the Boston Agent, A. Williams & Co. It is an attractive number. Moses Hale is agent for Ellsworth.

—The American Almanac for 1858 is received from the Publishers, Crosby, Nichols & Co., Boston, through A. Williams & Co. This Almanac is a "Repository of useful Knowledge," comprising a collection of varied information, concerning the State and general governments, collated from official documents and private correspondence, relating to finance, legislation, public institutions, internal improvement, and resources of the U. S. and of the several States. The Astronomical Department was prepared by Mr. Geo. P. Bond, of the Cambridge Observatory. This is the XXIX vol. of an invaluable work.

"*Fifty Years in Chains.*" H. Dayton, New York, 29 Ann St. We read this narrative many years ago, under another name, and was intensely interested in it The National Era, in a review of this book says:

This is the title of one of the simplest, yet most intensely interesting, autobiographies of the day. It is the plain, homely history of an American slave in the far South, who, after two or three escapes and recaptures, finally, an old man, found freedom and rest in one of the Northern States. The story is told with great simplicity, but with much power and pathos. Whoever takes it up will find it difficult to lay it down until it is finished. The merit of the work lies in its narration of personal experiences The writer does not stop to argue about Slavery, and rarely to exclaim against it is a gigantic system of wrong, but contents himself with narrating his own experience while a slave, and the reader can make his own deductions. This is the way in which all such books should be written. Leave the reader to reason, to moralize—let the writer, the sufferer, *tell his story!* As a very interesting piece of self-history, this work has high merit, and, as a picture of American Slavery, higher still.

Cuear Esoteon.—In the Salem Court of Common Pleas, lately a man named Brown recovered damages to the amount of $60,00 of a Mr. Smith, for spitting in his face. People who are indifferent where they deposit their nastiness will please take notice.

Marshal Weaver transcendentalized.—From a Bangor letter, in the Traveller, we clip the following paragraph:

Ex-Marshal Weaver is in town, for the double purpose, I should judge, of resisting the demands of S. B. Brown for injuries taken under the Portland city government, and to obtain indemnity of the city for damages he has suffered from actions that have been brought and held against him while acting in his official capacity. Mr. Weaver appeared before the Common Council at their meeting last week, and stated his case with clearness and force, and from what I could learn, with considerable effect. Some persons and papers were handled without gloves, which brought one citizen to his feet. But his motion to censure Weaver for abusing his privilege, was not carried.

☞ The Jeffersonian says, this correspondent is probably Weaver himself.

Cure for Stammering.—At every syllable pronounced, tap at the same time with the finger. By so doing the most inveterate stammerer will be surprised to find he can pronounce quite fluently, and by long and constant practice, he will pronounce perfectly well. This may be explained in two ways, either by a sympathetic consentaneous action of the nerves of voluntary motion in the finger, and in those of the tongue, which is the most probable; or it may be that the movement of the finger distracts the attention of the individual from his speech, and allows a free action of the nerves concerned in articulation.—*Scientific American.*

Large Sum of Money Lost.—Mr. Love Joy, of Ellsworth, stopping at the United States Hotel in this city on his way to Boston, on Monday evening lost from his side pocket a package of money, amounting to $3,000. During the evening he attended the Jullien Troupe Concert, at the close of which he repaired to the hotel and retired, not missing his money untill Tuesday morning. He immediately gave notice at the police office, but no trace of the package could be obtained. About $2,000 of the money was in bills of the Bucksport Bank, mostly of $5 and $10 denominations, $200 or $300 in bills of the Veazie Bank, Bangor, and a small amount in bills of the Canal Bank of this city.—*Portland Advertiser.*

Burglary and Robbery.—We understand the store of Nathaniel Lambe & Son at Milltown, was broken into on Friday night last, and a quantity of pork, flannel, clothing, &c., abstracted therefrom, amounting to some forty or fifty dollars. The entrance was effected by breaking open the door leading from the shed into the store. The person who done the deed must have cut his fingers badly by some means, as blood was found on the door, and on the boots and other goods which he had handled If a sharp look out is kept for the fellow with the cut fingers he may turn up.—*Calais Advertiser.*

Fluid Accident.—Mr. M. T. Hill of this place was severely burned last Wednesday evening by burning fluid.—It appears that his wife attempted to sit a lamp on the mantel, but in so doing struck it against the mantel broke the lamp and spilled some of the fluid on to Mr. H. who was sitting near. The fire instantly communicated, burning his left hand and arm and side of his head and face very severely. Mrs. H. burned her hands slighly.—*Machias Union.*

—If this number of the American is found to be better than usual, the credit of it belongs to our correspondents and exchanges.

Accommodating.—As a gentleman was recently passing over Charlestown Bridge, at the dead hour of night, he was accosted by two villainous individuals, who inquired the hour of the night. The gentleman quietly stepped under the light of the lamps, and drawing a revolver, cocking it, and aiming it at the men, he drew a valuable gold chronometer, and holding it directly over the muzzle of the pistol, replied "Look and see!" Cool and accomodating, that.—*Traveller.*

—Worthless bills, of all denominations, on he Exchange Bank, Bangor, Me., altered so as to correspond in many respects with the issues of the Exchange Bank of Boston, have been put in circulation in this city.—*Boston Herald.*

—We learn from a gentleman engaged in the lumbering business on this river, that much more is being done in the woods this winter in getting timber than it was expected would have been done in the early part of the season. Although there is not so much doing as is usually done, on account of the difficulty experienced by many in procuring supplies. Those who have put teams into the woods are doing first rate. A larger amount of logs will be got out this season in proportion to the number of teams and men employed than has been got out for many winters past. The winter thus far has been remarkably favorable to lumbering operations.

Mothers! Mothers! Mothers!

As Old Nurse for Children. Don't fail to procure Mrs. Winslow's Soothing Syrup for children Teething. It is no quack nostrum. No mother who has ever used Mrs. Winslow's Soothing Syrup for children will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. It lightens the child's sufferings, it relieves the mother of her anxiety and watching, it brings health and comfort to the household, and imparts to the mother the blessing of a good night's rest. It is the prescription of one of the most skillful nurses in the world, and is perfectly safe in all cases of teething without exception. It corrects the acidity of the stomach, relieves the wind colic, regulates the bowels, cures dysentery and diarrhœa, whether arising from teething or from other causes, and overcomes convulsions, which are the results of teething, and by giving health to the child, it imparts rest to the mother and comfort to all the family. A trial of one bottle will speedily convince the most prejudiced of its astonishing efficacy, and we unhesitatingly offer it to all other expectants.

Testimonials of Dr. A. A. Hayes, U. S. chemist to the Massachusetts Institute of Technology, and other eminent chemists, accompany each bottle of the preparation, to the truth of which testimony is given by the signature of one of the most eminent physicians of the American metropolis. Mothers, we need not say more to you of the value of Mrs. Winslow's Soothing Syrup. Rely upon it, it will do all that is claimed for it. Keep it near your infant when you retire to your chamber, and when you are aroused from your sleep by your child's wakefulness and cries, give it a few drops and you will be amply rewarded for your trouble. Many of the nurses in our establishment have used it in their families for many years, and have never lost a child. Many of the children we have seen in our rounds, who are suffering from bowel complaints, are being fed upon Mrs. Winslow's Soothing Syrup, and we have not heard of a single case where it has not given immediate relief. We have seen many testimonials given by nurses, physicians, and mothers, which we could not publish without exposing the name of the parties who gave them, but we can say that we believe the Proprietor of this article is a benefactor to mankind, and that his Soothing Syrup is a boon to mothers. We have seen many testimonials to the efficacy of Mrs. Winslow's Soothing Syrup, signed by "A. S. Hayes, M. D., Chemist, Boston, Dec. 10, 1857." Sold by Druggists everywhere in America. Price 25 cents a bottle.

Mothers who have used Mrs. Winslow's Soothing Syrup for their children, are invited to give their experience at the office of the Agent, as above, or address by mail, post paid, stating their name and residence, and the name of the article they use, and the number of bottles used, and the disease or diseases their children are troubled with, and a pamphlet containing testimonials will be sent to them gratis, and their letters will be kept strictly private. The Syrup is sold by all respectable Druggists throughout the world. Price only 25 cents a bottle.

Boston, Aug. 22, 1856.

J. Russell Spalding, Esq.—Dear Sir: It is with great pleasure that we hereby do certify that your Rosemary needs but a trial to become a necessity for everybody. All ladies who have not used this Hair Oil, declare unanimously, that it not only renders the hair vigorous, but gives also beauty and splendor, and that it is in every regard the best article for the hair that can be found in the United States; so that we can recommend it with our best conscience to our countrymen and the public in general.

MORITZ AND EVA HOFMAN.

Rosemary for Children's Hair and with the Ladies.

The Proprietor of the Sunday News, Frank Adams, Esq., furnishes the following testimony

Boston, Aug 23, 1856.

One lady with whom we are personally acquainted, has used the Rosemary for nearly two years, and will not be without it a moment. This lady has three children, and their heads are constantly washed with this article, and we can say from our own observation, that it is one of the best we have seen used. It gives to the hair a rich, glossy appearance, and keeps the scalp in a healthy state. This lady also uses the Rosemary for her own hair, and is delighted with it. She prefers it to every article for the hair now in use. We have the testimony of several ladies in favor of it

FRANCIS ADAMS.

Mr. J. R. Spalding—Sir: It is with pleasure I have used your Rosemary with great success in keeping my hair black, as age was turning it very fast. Yours respectfully,

Cambridge, Jan. 28, 1856. Mrs. D. TAFT.

New Haven, Conn., Feb. 1, 1855.

Mr. J. Russell Spalding—Dear Sir: A few nights since I saw a fair head of very dark hair on a man that six weeks ago was bald. He had used nothing to produce it but your Rosemary and Castor Oil preparation. He purchased another bottle, and says he shall never be without it if it is possible to be had. I am selling it constantly, and shall keep supplied. Yours truly,

A. F. WOOD,
Druggist and Chemist, New Haven, Conn.

Fair and positive evidence of the real virtue and merits of the Rosemary will be shown to any one who will call on the proprietor. Space will not admit any more certificates here; but we have the pleasure to give the names of some who can be consulted about it:

Mrs. Louisa Sweney, 25 Rowe Street, Boston, Rev. C. W. Denniston, late U. S. Consul, Demerara, S. A.; W. T. Brante, F. R. S., & L. & E. to her Majesty's Mint, G. B.; Abram A. Truax, Rotterdam, N. Y., 79 years of age; Benjamin Seavey, Esq., Bromfield House, Boston.

☞ Hundreds could be added to this list if room permitted.

It is pleasing to the proprietor to receive communications respecting the beneficial use of the Rosemary, to which he is always happy to respond in an appropriate manner.

Desiring to place the article within the reach of all, it is put up in trial bottles for 25 cents; large bottles, containing nearly six times the quantity, for $1,00.

Sole Proprietor J. Russell Spalding, Manufacturing Chemist. Principal Depot, 27 Tremont St., opposite the Museum, Boston, Mass., where all orders should be addressed. The fac simile of his signature is on every bottle of the genuine.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents

Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

76 STATE ST., opposite Kilby st., Boston,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the ability of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent on remitting One Dollar.—Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.—These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are hereby saved inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor procuring patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,

Late Commissioner of Patents."

[From the present Commissioner.]

"August 17, 1857.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office as a solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office.—I regard him as *one of the most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

B. T. BABBITT'S

BEST SALERATUS,

is prepared entirely different from other saleratus. All the deleterious matter is extracted in such a manner as to produce bread, biscuit, and all kinds of cake, without containing a particle of Saleratus when the bread is baked; thereby producing wholesome results. Every particle of Saleratus is turned to gas and passes through the bread or biscuit while baking, consequently nothing remains but common salt, water, and flour. You will readily perceive by the taste of this saleratus that it is entirely different from other saleratus. When you purchase one paper, you should take the old paper with you, and be very particular and get the next exactly like the best, (*sweet and pulverized*,) twisted loaf-bread, with a glass effervescing water on the top, as you see in the bill.)

Full directions for making *Bread* with sour milk and *Cream Tartar*, and all kinds of pastry; also for making soda-water; also, for making seidlitz powders, will accompany each package.

PURE POTASH
IN TIN CANS.

B. T. BABBBITT, 68 & 70 Washington St., N. Y., and 38 India St., BOSTON.

The Proprietor of this *POTASH* has for many years seen the necessity of having some reliable standard for the strength of *POTASH.* The adulteration has become so general, that it has, notwithstanding its valuable properties, gone nearly out of use. The Proprietor has taken the responsibility of subscribing his name to every package, and warrants the strength to be uniform, and when used always producing the same results. Potash many times is adulterated with salt, which is destructive in making soap; it makes the Ladies say they did not have good luck, &c. One other reason that Potash has gone out of use, is, it is so unpleasant to handle, being put up in wooden casks, and becoming a liquid in many cases, and very troublesome to the retailers.

Now the Proprietor first obtains pure Potashes, always being the same strength, and producing the same results; and will warrant it in all cases, if the directions are followed, to produce double the effect in making soaps, and all other purposes for which Potash is used, with full directions for making the best of Soft, Hard, or Fancy Soaps. It is made with little trouble; the ley is all prepared in five or ten minutes.

1 lb. Potash warranted to cut 5 lbs. of grease into good soap.

12 lbs. will make one barrel of beautiful soft soap.

Directions for making soft soap.

Directions for making Hard Soap.

Directions for Laundries and Hotels.

Directions for cleaning cotton waste that has been used for cleaning machinery of all kinds.

Directions for using this Potash in place of sal soda.

Directions for sticking India-rubber soles on shoes.

The Boston Journal
FOR 1858.

"*The Favorite Paper in New England.*"

Published Daily, Semi-Weekly and Weekly.

In announcing the terms for the Boston Journal for 1858, the proprietor does not deem it necessary to describe its peculiar characteristics as a popular newspaper, or to make any special promises for the future. He deems it sufficient to say, that when the Journal has been in the past it will be in the future. By the almost unanimous consent of its contemporaries throughout New England, The Journal stands at the head of the New England Press in all those qualities which go to make up a reliable, enterprising, *live newspaper.* This position it has attained by pursuing a steady, straight-forward course in all respects, and by sparing neither labor nor money to give the latest intelligence and the fullest reports of all matters of interest at the earliest moment. It has relied upon its own merits, and not upon the representations of canvassers or "drummers" to gain for it the confidence and patronage of the Public—and the result has been that it has now a circulation more than double that of any paper of its class in New England—and at no previous time has its circulation increased more rapidly than during the past six months. The proprietor intends by the employment of experienced and competent men in all the departments of the establishment, and by the most liberal outlay of money in the procuring of important news from all quarters, to make The Journal still more worthy the name of "*the favorite paper of New England.*" And with this simple announcement he invites the attention of newspaper readers and newspaper dealers throughout New England to the following statement of the terms for the several editions of The Journal:

THE BOSTON DAILY JOURNAL,

Morning and Evening,

Contains the latest news received by the mails and telegraph up to the hour of going to press. It is printed on the ONLY SIX-CYLINDER FAST PRESS in New England, which enables us to hold back the forms until the very latest moment, and

Attest,—A. A. BARTLETT, Register. 3w51

To the Honorable Judge of Probate within and for the County of Hancock.

THE petition of Joel Moore, administrator on the estate of Joseph Moore, late of Goulsboro', in said County of Hancock, deceased, intestate, respectfully represents that the personal estate of said deceased is not sufficient to pay the just demands against said estate, by the sum of Five Hundred Dollars; that said deceased died seized and possessed of certain real estate being the farm or homestead situate in Goulsboro', containing one hundred and seven acres, more or less; that an advantageous offer has been made to him for said real estate, including the reversion of the widow's dower; and that the interest of all concerned will be forwarded by an immediate acceptance thereof. Said administrator therefore prays that he may be authorized to accept of said offer and sell said Real Estate to John Vansaw, the person making said offer, at private sale. And as in duty bound will ever pray. JOEL MOORE, Adm.

Goulsboro', Dec. 30, 1857.

At a Court of Probate held at Ellsworth, within and for the County of Hancock, on the first Wednesday of January, A. D. 1858.

On the foregoing Petition, Ordered—That the Petitioner give notice to all persons interested by causing a copy of the petition and order of court thereon, to be published three weeks successively in the Ellsworth American, that they may appear at a Probate Court to be held at Ellsworth in said county, on the first Wednesday of February next, at ten of the clock in the forenoon, and show cause, if any they have, why the prayer of said petition should not be granted.

A PHYSICIAN'S LEGACY TO YOUNG MEN

The glory of a young man is his strength."

(From the N. Y. Sunday Dispatch, Aug. 23, 1857.)

Few readers are aware that we seldom, if ever, recommend a medical publication, if not endorsed by the very highest authority. As such an instance we may mention DR. CULVERWELL'S *new publication on Nervous Debility* and other weaknesses, the result of early indiscretion—a small but valuable Pamphlet. His publications, "GONORRHŒA" and "NERVOUS" are now considered the safest and only effectual remedies extant for the complaints referred to.

DR. CULVERWELL'S SPERMATIC RECONSTRUCTION and ROYAL NERVINE, the sovereign remedies for Seminal Weakness, Sexual Debility, Impotency, Involuntary Emissions, Piles, &c., are for sale by most of the leading Druggists in the country.

DR. CULVERWELL'S PAMPHLET, as above, containing full advices for the cure of Spermatorrhœa, &c., entitled Hall, to a secret society, by enclosing a stamp to Dr. CHAS. J. C. KLINE, 1st Avenue, corner 16th street, NEW YORK, POST BOX **No. 4586.** 9-3-1226

PEDAL SUB BASS HARMONIUM.
PRICE 275 DOLLARS.

S. D. & H. W. SMITH,
Manufacturers of
MELODEONS,
ORGAN MELODEONS,
AND
PEDAL SUB-BASS HARMONIUMS,
511 WASHINGTON STREET.
BOSTON.

THE ATTENTION OF
Clergymen, Committees, School, Lodges, &c.
IS INVITED TO THE NEW
PEDAL SUB-BASS
HARMONIUMS
Made Solely by the Manufacturers.

It is arranged with two manuals or banks of keys, the lowest set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or, by the use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Sub-Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument, when used without the Pedals.

Also, every variety of MELODEONS for parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

we have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen.

In short, we will promise our customers an Instrument equal if not superior to any manufactory, and guarantee ENTIRE AND PERFECT SATISFACTION.

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the Melodeons and Harmoniums from our manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

Who have examined our Instruments and will give their opinion when called upon:

Chickering & Sons,	Hallet & Cumston,
William P. Emerson,	Brown & Allen,
George Hews,	Woods and A. Brown,
T. Gilbert & Co.	A. W. Ladd & Co.

Nuthall & Co.

MELODEONS AND HARMONIUMS RENTED.

Persons who wish to hire Melodeons & Harmoniums with a view of purchasing at the end of the year, can have the rent credited as a part payment of the purchase money. We would also call the attention of such as are undecided, whether to purchase or not, to our facilities for chasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

500 FARMS FOR SALE,

IN A MILD CLIMATE, AND HEALTHY LOCATION WITH ONE HOUR'S RIDE OF PHILADELPHIA, PA. BY RAILROAD.

THIS TRACT OF LAND is now connected with Philadelphia in a direct passing through and has been divided into Farms of 20 acres and upwards, and put upon sale. It has the LARGEST MARKET for produce, and is adjacent to the largest population in the Union. The Farms have been surveyed and platted, so that purchasers may select a farm, and make payments, quarterly, or yearly, at their option, and receive a deed for the same, within a term of four years. The price of the land is $10 per acre, payable $2 down, and the balance in payments as above. The Farms are in Salem County, one of the oldest settlements of the Middle and New England States, and now rapidly improving.

DESCRIPTION OF THE LAND.

It is various in quality, from a light, sandy loam, producing fruit and vegetables, with its many kinds of manure, to a strong, heavy loam, producing wheat and grass. The portions of the tract have a sandy surface, with a fine loam subsoil, other portions are quite destitute of sand surface, being almost stiff and so heavy as to require four or five horses to plow it, other portions are timbered with both light sapling and heavy timber. White Oak, Black Oak, Chestnut, Hickory and Yellow Pine, on the eleventh mile post from Walnut Street on the lower Rd. In other portions are cleared of the timber, and at very little expense can be brought into cultivation. Some districts are undulating and other portions quite level. Some rise fine for grazing land, and abundance of water throughout the tract. This fertilizer is found to be superior to marl and much more durable. The country is unsurpassed for its healthfulness of climate. Fevers are unknown. The water throughout is excellent; wells generally from 10 to 15 feet in depth, to never-failing springs of the soft water. Building-stone and large streams flowing over the tract. The place possesses great advantages over the Western lands, free from ague and near the great Philadelphia and New York markets, while an early spring and mild, open autumn afford ample time to get produce to market.

This tract immediately adjoins the town of HAMMONTON, one of the most beautiful places in that vicinity. Every kind of building materials can be had at Philadelphia prices. A good house can be built at from $400 to $600. The settler here is within a short ride of his old friends and society, without going thousands of miles to a second and wealthy climate. It presents an opportunity to the industrious to acquire an independence, as there is no business, at the present market prices, so certain and profitable as farming.

Perfect Titles and Warranty Deeds given.

Parties visiting should come prepared to make their payment, at some locations. The first instalment on 20 acres is $100, or more in proportion, and can be sent by letter, and purchase secured.

TOWN LOTS also for sale, for from $50 to $75 dollars.

Route to Hammonton: The Railroad trains leave Philadelphia twice a day. Leave Vine Street Wharf at 7 A. M. and 4 P. M. for Hammonton Station. When there enquire for the Agent. The Town is one mile from the Railroad Station.

Descriptive Pamphlets and all information can be had of S. B. COLGILIN, Agent, 230 South Third Street, below Walnut, Philadelphia, or JOHN SELL, Agent, Hammonton, Atlantic Co., N. J. Enclosing postage stamp, promptly answered.

FERTILITY OF HAMMONTON LANDS.

Extract of a Letter from Harvey Bush, Esq., Norristown, Pa.—

"I have been a practical farmer for twenty years, and have bought in Hammonton because the land is of the best quality for agricultural purposes. Those who purchase will do well to do so. I am very much pleased with the place. At no distant day I will erect a store here and a first-rate Boarding-House for young ladies. The lot I have also bought. It will be conducted by my daughters, who now conduct the Adelphia institute at this place.

"HARVEY BUSH, Adelphia Institute."

"New Bedford, Mass. July 6, 1857. Having just returned from a visit to Hammonton, I take pleasure in stating that I think it the best place I ever saw, as a farming locality. I have been in the Western States this spring, but saw nothing I liked as well. A number of persons have called with me, on my return, and a business was going there this season, so that their business will allow them to leave here.

"W. J. TILLEY."
